OMAR MOHAMMED SALEH ABU ALSEBAH

Front-End Developer | React.js | Next.js

Palestine | +970597641944 | omarsebah4@gmail.com

LinkedIn: linkedin.com/in/omarsebah | GitHub: github.com/omarsebah1

PROFESSIONAL SUMMARY

Results-driven and highly collaborative Front-End Developer with 2+ years of freelance experience and a proven track record within structured agile software development teams. Specializing in building scalable, responsive, and high-performance web applications using React.js and Next.js. Possesses exceptional interpersonal and soft skills, excels in cross-functional team environments, and maintains strong direct-client communication. Adept at translating complex Figma designs into production-ready user interfaces, optimizing web performance, and writing clean, maintainable code. Demonstrates professional-grade bilingual communication with fluent native-level proficiency in English.

CORE & SOFT SKILLS

Frontend Technologies: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Redux Toolkit, Axios

Architecture & Optimization: Responsive Web Design, Performance Optimization, SEO Best Practices, Component-Based Architecture, Cross-Browser Compatibility

Soft Skills & Teamwork: High-Level Team Collaboration, Clear Technical Communication, Active Listening, Problem Solving, Critical Thinking, Time Management, Adaptability, Fast Learning, Attention to Detail, Leadership, Self-Motivation

Tools & Workflow: Git, GitHub, Visual Studio Code, Figma, Canva, Postman, Vercel, npm

LANGUAGES

- **English:** Advanced / Fluent (Excellent professional communication, curriculum-level articulation, and team coordination capabilities)
- **Arabic:** Native proficiency

PROFESSIONAL EXPERIENCE

Front-End Developer Intern 3-Month Internship

Aresto — Software Development Team

- Collaborated closely within a cross-functional software development team including UI/UX designers and back-end developers to deliver high-quality, production-ready systems.
- Developed and maintained more than 7 comprehensive production web pages using Next.js, ensuring clean architectural compliance.
- Actively participated in daily agile team meetings, structured code reviews, and collaborative sprint planning sessions to streamline project delivery.
- Leveraged strong interpersonal skills to bridge communication gaps between technical front-end layouts and back-end logic integrations.
- Improved web responsiveness and overall user experience across desktop, tablet, and mobile layouts.

Front-End Developer (Freelance) 2023 – Present

Self-Employed

- Communicated directly and transparently with international clients to gather system requirements, align project scope, and deliver top-tier solutions on schedule.
- Developed scalable, modern web applications leveraging the full power of React.js, Next.js, and TypeScript.
- Converted complex Figma layouts and high-fidelity UI/UX mockups into pixel-perfect, standards-compliant user interfaces.
- Built modular, reusable components to optimize code maintainability and team scalability.
- Optimized application loading speeds, frontend structures, and Next.js SEO configurations to enhance user retention and engagement.
- Managed multi-branch version control, code deployments, and asynchronous updates using Git and GitHub.

EDUCATION

Bachelor of Computer Systems Engineering July 2023 – Present

Palestinian Technical College

- **Current Cumulative GPA:** 92.3 / 100
- Engaged in collaborative academic engineering projects, reinforcing leadership and peer-to-peer technical alignment.

FEATURED PORTFOLIOS & PROJECTS

- **GitHub Master Portfolio:** github.com/omarsebah1 — Hosts complete source code for interactive web deployments, responsive applications, and systems.
- **Core Deliverables:** Production Dashboard Systems, Performance-Optimized Landing Pages, Interactive Portfolio Websites, and Corporate Web Solutions.
